Tony Griffith: The Art of The Magician

During recent years I have been presenting a talk called THE ART OF THE MAGICIAN for groups looking for Speakers e.g., Probus, U3A etc. During the presentation I speak about one or two well-known magicians of the past and show different tricks to illustrate various aspects of our art.

During the lecture I will show one or two of these plus close-up items from when I worked close up a lot. I will explain in detail quite a few of them. However, because of the medium of zoom I will not go into as much detail with some of the others. It will be in the question section that I can answer any questions about them. There will be a variety of items, something for most people, I hope.

I will have a few items available if anyone is interested. Details can be found on my web site www.tonygriffith.co.uk. There will be a discount of 10% on tricks and £5 off any books bought.

During the question part I am happy to answer any questions about what I do, or did when we were all pre covid.
